CAMDEN, JULY 16, 1836.

FOR CONGRESS.

COL. JOHN P. RICHARDSON.
FOR THE STATE SENATE.
COL. JOHN CHESNUT.

☐ We are authorized to state that the following gentlemen have consented to be candidates for the House of Representatives at the ensuing election: LAWRENCE L. WHITAKER, JOHN D. MURRAY, M. M. LEVY.

NOTICE.—The Rev. J. A. RUSSELL will hold Divine Service in the court house in this place, on Friday, the 20th inst., at early candle light. July 15, 1836.

Extract of a letter from the Editor of the JOURNAL, dated,

"COLUMBUS, (Ga.) July 5th, 1836.

"I shall go round the nation, by going up the river to West Point, and then across to Wetumpka—a small town at the junction of the Coosa and Tallapoosa rivers. This route has been travelled, throughout the campaign, with perfect safety. I am informed, by many, that there is no danger to be apprehended in going directly through the nation. I do not wish, however, to run any unnecessary risk; and as this route will require only a day more in travelling, I have deemed it most prudent to adopt it. I shall go in company with two or three gentlemen.

"You will, no doubt, have seen it repeatedly stated that the Creek war is over. This I do not believe, though we must hope for the best. JIM HENRY, the Creek Oscola, is undoubtedly, now a prisoner at Tuskegee. Gov. SCHLEY sent over a company to demand him, in order that he might here meet the fate due to his crimes. But Gov. CLAY, of Alabama, had anticipated him, and already taken him into possession—so that Alabama, and not Georgia, will mete out to him that reward which his aggravated cruelties merit. It is said here, that the troops will be disbanded in a few days, and whenever this event takes place, I anticipate a renewal of hostilities. They should not be discharged until every Indian is on the march for his return home.

"It is rumored here, this evening, but upon what authority I know not, that Col. BEALL, who was sent after a large party of Indians, who were making their way to Florida, had overtaken them some distance below Baker county, in this state, routed and cut them to pieces. I hope it may be true, but there are such a variety of rumors, of all sorts, afloat that it is impossible to determine which to believe.

"Gen. SCOTT is not more popular here than in Florida, but Gen. JESSUP is winning golden opinions. The notorious JIM HENRY was taken by a party of friendly Indians under his command.

"It is expected that the stage will commence running between this and Montgomery towards the end of the present week."

KNOXVILLE CONVENTION.

We glean the following information from an extra of the Columbia Times and Gazette:—A member from this State who left Knoxville on the 7th, states that the convention was organized at the appointed time, and Gen. HAYS appointed President, with 400 members in attendance, representing ten states. It is uncertain what route will be adopted—it is however admitted by all that the road must pass down the French Broad. The cost of which is estimated at 11,000,000 dollars. It appears there was an understanding among the members for the purpose of preserving harmony, that no peculiar route should be spoken of, not even in private. It was expected to adjourn on the 8th inst.

THE COTTON CROP.

We are informed by our western papers that the rains and frosts have been so frequent that not more than half crops will be made on the Alabama river, should the balance of the season be ever so favorable. This we believe is the case throughout the whole southern country—which, together with the great deficiency consequent on the Indian and Texian wars, must inevitably fall far short of the demand. This state of things will, we think, be the means of an advance in prices—so much so, that the planter will get almost, if not quite, as much for his half crop as he would, had a full one been made.

Our readers will find in to-day's paper a letter from the Editor, who is at present on a tour through a portion of the western country. He differs with the latest information we have received as to a speedy cessation of hostilities in the Creek nation. A line of posts has been established on the mail route between Columbus, Geo. and Montgomery, Ala. for the purpose of intercepting straggling Indians and giving perfect security to the mails.

TEXAS.

The recognition of the Independence of Texas has been, by common consent, left to the will of the President. It is placing at his disposal the liberty of a people born to be free. This is indeed what we did not expect from those who, at no very distant day, characterized him as the greatest tyrant on earth.

THE SURPLUS.

We have ascertained, from a table calculated on the basis of a surplus of 30,000,000 on the first of January, 1837, that South Carolina will receive, according to the mode of distribution, 1,122,451 or 6,748 dollars more than she contributes. The question now is what shall be done with this money?—We say, loan it out to the several corporations for the purpose of Internal Improvements.

The invention of Dr. NOTT for rendering Anthracite coal a substitute for wood, has been tried and proved successful. This gentleman has, for several years, with no little labor and much expense applied the power of his giant mind to the accomplishment of this great object by which he has conferred upon his country an incalculable benefit. Had not this discovery been made, the effect on our northern Steamers in a few years for the want of wood would have been such as to render almost accessi-

ry the destruction of one for the sustenance of the other, and consequently the total suppression of this mode of navigation on our northern waters.—It is well known that almost the whole northern portion of our country abounds with inexhaustible deposits of the Anthracite coal, the cost of which is comparatively small—so much so, that the expense of the steamer *Novelty*, by its substitution in her trip between New York and Albany, has, in one season, been curtailed near *nineteen thousand dollars*, the result of which, must be the means, not only of reducing the price of transportation, but the establishment of a line of steam packets between this country and Great Britain.

☐ We have been favored by a friend with the perusal of the last No. of the *Southern Baptist*, published in the City of Charleston. It is the first we have seen and therefore examined it attentively, for which we were liberally rewarded by its variety of useful and interesting matter. It is a paper, well worthy the notice not only of its doctrinal adherents, but of all whose becoming policy is, to collect the most information at the smallest expense.

Improving by Degrees—The degree of Admiral, Vice Admiral, and Rear Admiral has been created by the passage of the late Navy Bill. This has been done to act as a stimulant to rouse its drooping spirits, and spur them on to deeds of "noble daring." Has it come to this?—then talk no more of Liberty and the love of country, but let our motto be—*Promotion*.

The schr. *Urchin*, Capt. Bridges, arrived at New Orleans, on the 28th ult., from Metamoras, reports that active preparations were making by the Mexicans for another descent upon Texas—that the Commissioners who were sent to Metamoras to treat for an exchange of prisoners, had been arrested by the Mexican authorities and confined in prison, and all overtures for an acknowledgment of Texian Independence peremptorily refused. Capt. Bridges also reports, that the Mexicans had 4000 troops at Metamoras, 4000 at the Nueces and 6000 at Saltillo, all burning to meet the Texian rifle again. The Texians were also making preparations to give their invaders a warm reception, both by sea and land. The troops were to march for the Rio Grande to meet the enemy.

On Saturday, the 9th inst. the members of the Camden Jockey Club convened at the Sumter Hotel and elected the following officers:

Gen. JAS. W. CANTEY, Pres't.
Maj. JOHN MICKLE, 1st Vice Pres't.
Maj. JOHN CANTEY, 2d.
Col. JOHN BOYKIN, 3d.
Maj. A. R. RUFFIN, 4th.

FOR THE CAMDEN JOURNAL.

SEVENTH VILLAGE, 9th July, 1836.

Mr. Editor.—The word alluded to in the conundrum which appeared in the Journal of the 2d July, we have ascertained to be *HEROINES*—and if you think the following worthy of publicity, you will confer a favor by publishing it:

CONGRATULATIONS.—I am a word of six letters, and command more respect and esteem than all the heroes and heroines, whose chivalry has ever decked the pages of either ancient or modern history. I sway my sceptre over thousands of willing subjects.

1—My 3d, 4th and 6th is an old maid's choice of a husband.

2—My 1st, 2d, 3d and 5th is an article much used by coach makers.

3—My 5th, 2d, 3d and 6th, like the word you are in search of, makes a great noise in towns.

4—My 5th, 3d, 2d and 4th is a piece of economy if used well, will save a great deal of expense in buying stockings.

5—My 5th, 3d and 5th is an infantile expression or falter.

6—My 6th, 3d, 2d and 4th is a material without which cloth cannot be manufactured.

7—My 4th, 3d and 6th is expression never used by my subjects when invited to pay homage to their sovereigns.

8—My 2d, 3d and 4th is what Col. Tarleton did at the battle of the Cowpens.

9—My 1st, 2d, 3, 4th and 5th is what my true subjects frequently receive from the laws of their country.

10—My 1st, 3d and 5th is expressive of the character of my faithful subjects. I never fail to take the life of my most particular friends and greatest admirers; and notwithstanding my tyranny, I am dearly loved by all my subjects. H—
